

PNEUMATIC & POUCH LEATHER

TAN PNEUMATIC

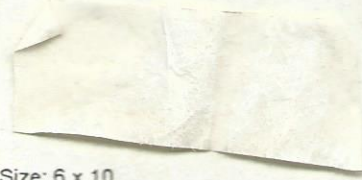

Size 3-5 sf
Weights: X-thin, Thin, Med, Hvy

CHROME PNEUMATIC

Size 3-5 sf
Weights: X-thin, Thin, Med, Hvy

ZEPHIR

Size: 6 x 10
Weights: Thin, Med, Hvy

SWELL SHADE PNEUMATIC

Size: 15 sf +
Weight: .045+

BELLOW/ RESERVOIR /RIBS

Pre-stretched
Reservoirs, Ribs, Bellows
Size: 15-25 sf
Weight: .039+

BLACK

Gaskets, Valves, etc
Size: 4 - 8 sf
Weight: .031-.040.

COWHIDE

GASKET / PACKING

Double buffed, Uniform Weight
Size: 6 to 12 sf
Weights: Thin .035 - Hvy .060

GASKET / SPLITS

Double buffed deer splits
Size: 2-4 sf
Weights: .016-.024

CABRETTA VALVE / GUSSET

Size: 4 - 9 sf
Weights: Valve .035, Gusset .047

WHITE VALVE

Pallets, Valves - White finish
Size: 5 - 9 sf
Weight: .035+

ALUM STAIN

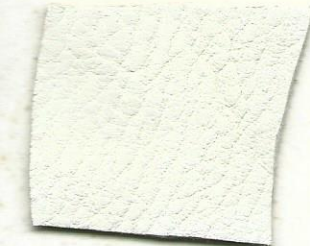

Valves, Gussets
Size: 6-10 sf
Weight: .040+

ALUM WHITE Imported

Valves, Gussets
Size: 6-9 sf
Weight: .035 (Hvy-Special .047)

DEER

Large Stoppers, Valves
Size: 7 to 12 sf
Weights: Thin .035, Hvy .055

GOAT

Pneumatics, Gussets, Ribs
Size: 4 - 9 sf
Weights: Kid .016, Med .035, Hvy .047+

SUEDED GOAT

Size: 4-9 sf
Weight: .035+

PERCUSSION

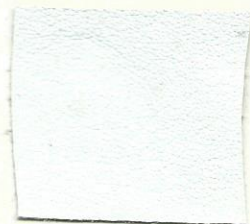

Drums, Casavant
Size: 6 - 9 sf
Weight: .035+

FLAP VALVE

Size: 10 - 20 sf
Small available
Weights: Thin .035+, Hvy .062+

KANGAROO

Pouches, Valves, Gussets
Size: 4-6 sf X THIN - .012
Weights: Thin .016, Med .023, Hvy .031

TOTAL PIPE ORGAN RESOURCES

Custom cut leather pieces available. All Skins marked to indicate nearest quarter square foot – 5¹ = 5.25 sq. ft.: 5² = 5.5 sq. ft. etc. If assistance selecting proper leather is required, provide sample or description of where and how it is to be used. *ALL leather thicknesses are measured with a weighted Felt and Leather Gauge and all dimensions listed are average. Measurements and Dimensions are accurate at time of printing but are subject to change.

Pneumatic Leather

Fine grained tan Havana (brown leather) used for pouches, diaphragms and small pneumatics. Available in 4 weights. Sheepskin 5 to 9 sq. ft. per hide.

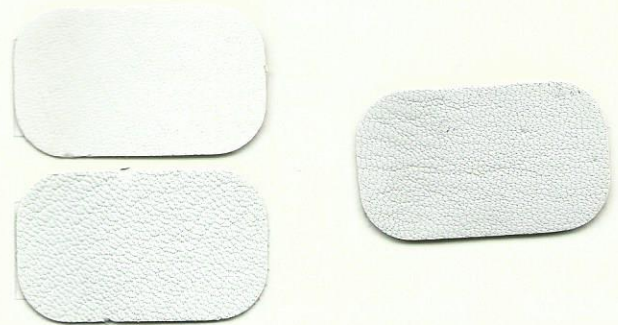

| | <u>Weight</u> | <u>Thickness</u> |
|---------|---------------|------------------|
| 6200.01 | Extra Thin | .010" - .014" |
| 6200.02 | Thin | .014" - .018" |
| 6200.03 | Medium | .018" - .024" |
| 6200.04 | Heavy | .024" - .032" |

Chrome Hairsheep Leather

Chrome tanned Hairsheep pneumatic leather is the most sought after leather for covering and re-leathering or organ pouches. This pearl colored leather is ideal for pouches, diaphragms, and small pneumatics. Sheepskin 5 to 9 sq. ft. per hide.

| | <u>Weight</u> | <u>Thickness</u> |
|---------|---------------|------------------|
| 6202.02 | Medium | .018" - .023" |
| 6202.03 | Heavy | .022" - .026" |
| 6202.04 | Extra Heavy | .035" - .044" |

Cabretta

High quality leather for medium pneumatics, and small stoppers. Sheepskin 4 to 8 sq. ft. per hide.

| | <u>Weight</u> | <u>Thickness</u> |
|---------|---------------|------------------|
| 6210.01 | 1 oz. | .025" - .040" |
| 6210.02 | 2, 2-1/2 oz. | .040" - .055" |

Kangaroo Leather*

(* Subject to Availability)

6203.02 **Pneumatic** – Fine thin pearl leather used for pouches, diaphragms and small pneumatics. **3 to 5 sq. ft. per hide. Thickness .012" - .019"**

6225.10 **Gusset** – Soft, pliable pearl leather for reservoir corners. **3 to 5 sq. ft. per hide. Thickness .020" - .030"**

Nappa Chrome Leather

6213.00 High quality chrome tanned leather for large pneumatics and tremolos. Cowhide. Weight **1.75 – 2 oz.** Thickness **.030" - .045"**. **10 to 30 sq. ft. per hide.**

Swellshade Pneumaic

6225.00 Soft, pliable white leather tanned for corners of reservoirs. **Sheepskin 9 to 10 sq. ft. per hide.** Thickness **.035" - .050"**.

6225.20 Soft, pliable white leather tanned for corners of reservoir. **Cowhide 18 to 22 sq. ft. per hide.** Thickness **.035" - .050"**.

Alum Bellows

6230.00 White, stretched leather tanned for reservoir ribs. Cowhide. **13 to 19 sq. ft. per hide.** Thickness **.035" - .050"**.

Packing Leather

Double buffed, uniform thickness. For chest gasketing and large wood pipe stoppers. Cowhide. **8 to 14 sq. ft. per hide.**

| | <u>Weight</u> | <u>Thickness</u> |
|----------------|---------------|----------------------|
| 6240.00 | Heavy | .065" - .080" |
| 6241.00 | Thin | .040" - .055" |

Silicone Leather Conditioner

6260.00 Silicone solution improved flexibility and extends life of leather when exposed to alkalis, acids, salts, and chemicals. Water absorption is reduced, breathing characteristic of leather is unimpaired. Silicone solution is brushed on leather or fabric after material is glued in place. It cannot be applied to leather before gluing.

TOTAL PIPE ORGAN RESOURCES

Rubber Cloth

Rubber cloth is available in various laminations of one or more layers of high quality cotton or synthetic fabric bonded to an extruded natural or synthetic rubber membrane. Single coated rubber cloth has one fabric sheet bonded to one layer of rubber. Double textured rubber cloth has the rubber membrane sandwiched between two layers of fabric. Fabric color may vary from description. Widths 56" to 62"

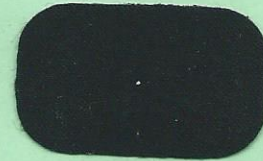

6310.00

Single coated black rubber on white cloth, very thin. For small pneumatics. **.008"** thick.

6315.00

Double textured cloth with rubber center. For medium pneumatics and small motors. **.016"** - **.018"** thick.

6320.00

Double textured black drill cloth with rubber center and cloth back. For schwimmers, reed organ and player piano pump bellows. **.030"** thick.

6330.00

Double textured black drill cloth with rubber center and fleece backed. For reservoirs and blower bags. **.050"** thick.

6340.00

Single coated black rubber on 20 oz. heavy cloth back. For large reed organ reservoir. **.020"** thick.
